

Environmental Policy

SwRI® strives to be an environmentally responsible corporate citizen in our community and is committed to protecting the environment and conserving our natural resources. SwRI accomplishes these commitments by effectively managing and continually improving processes and services, complying with applicable legal and other requirements, establishing and reviewing environmental objectives and targets, and minimizing impact on the environment through pollution prevention.

Implementation of this policy is the responsibility of all SwRI personnel. The policy is available to SwRI personnel, contractors, and the public through the Institute web site (www.swri.org). In keeping with this policy SwRI leadership adopts the following “C²IP” guiding principles:

C² – Communicate & Comply with Requirements

I – Improve Environmental Programs

P – Prevent Pollution

Adam L. Hamilton, P.E.
President & CEO
