

Safety Policy

The policy of Southwest Research Institute (SwRI®) is to ensure the health and safety of its personnel. To demonstrate this commitment, SwRI leadership adopts the following “ACE” principles:

- A** - Assessing the occupational health and safety (OH&S) hazards and risks and taking steps to eliminate or minimize them.

- C** - Continually improving OH&S management systems by setting and striving to achieve higher performance goals and consistent reduction in recordable injury rates.

- E** - Ensuring compliance with applicable OH&S legal and other requirements.

SwRI accomplishes this policy by creating a positive safety culture and by communicating and implementing the Triad® program: Awareness of hazards and hazardous behavior; Monitoring and self-inspections; and Training of personnel.

Adam L. Hamilton, P.E.
President & CEO
