

The 9th International Supercritical CO₂ Power Cycles Symposium

March 2 – 5, 2026

Sheraton Pittsburgh Hotel at Station Square
300 W Station Square Dr.
Pittsburgh, PA

The 9th International Supercritical CO₂ Power Cycles Symposium is a technical meeting bringing together industry, academia, and government agencies to advance supercritical carbon dioxide power cycle technology. The symposium will feature paper sessions, keynote speakers, panel sessions, pre-conference tutorials, Technology updates and an industry-sponsored reception and Dinner. The goal of the symposium is to create a network of expertise and technical understanding in the field.

The 2026 theme is "Demo to Commercial Applications".

This foremost conference for sCO₂ Power Cycles features:

- Keynote presentations by industry and government leaders
- Technical papers and tutorials by experts
- Industry and government R&D panel sessions
- Networking reception, lunches, and dinner

The symposium will be preceded by a tutorial session and industry sponsored reception on Monday, March 2, 2026.

For additional details and how to submit an abstract, please visit sco2symposium.com.
